Professional Summary

B.Tech 3rd-year Computer Science student at KL University with a specialization in UX Design & Game Development. Experienced in full-stack development and game design using Unity and Blender. Passionate about crafting engaging digital experiences through code and design. Proficient in multiple programming languages and modern development tools. Eager to contribute to dynamic tech teams focused on innovation and real-world impact.

Education

- B.Tech in Computer Science (UX & Game Development) - KL University, Vijayawada
2022 - 2026 | CGPA: 8.03
- +2 (CBSE) - Viswasanthi, Vuyyuru (2020 - 2021)
- 10th Grade (CBSE) - VS St. Johns Hr. Sec. School, Gannavaram (2007 - 2019)

Technical Skills

- Languages: C, Java, Python, JavaScript
- Web Technologies: HTML5, CSS3, MERN Stack
- Game & Design Tools: Unity, Unreal Engine, Blender
- Other Tools: Git/GitHub, Graphic Design
- Methodologies: Agile, Scrum

Projects

- Portfolio Website - A responsive portfolio developed using React, Tailwind CSS, and Framer Motion. Includes interactive project galleries, animated transitions, and contact form integration. Designed to reflect modern UI/UX practices and optimize accessibility.
- Blogging Platform - Full-stack MERN blog app with user authentication via JWT, CRUD post management, and a rich-text editor. Features comment section, post categorization, and responsive admin dashboard with MongoDB integration.
- Aadhaar Card System - Java-based simulation that mimics real Aadhaar enrollment. Includes registration form with data validation, auto ID generation, and persistent storage using file handling. Demonstrates OOP principles and modular design.
- Webinar Hosting Platform - Built using Python and Flask, this tool enables webinar creation, participant registration, and automated email notifications. Utilizes server-side form validation and basic authentication with session handling.
- 3D Endless Runner Game - Game developed in Unity with C# featuring procedural generation of obstacles, player progression system, collectibles, and scoring logic. Integrated sound effects and UI elements for immersive gameplay experience.

Certifications

- Salesforce Certified AI Associate
- AWS Certified Cloud Practitioner
- Unity Certified User
- NCC Certificate A (Air Wing)
